

Taito City Disaster Prevention Map (Earthquake Edition) Personal Edition

This map shows places to evacuate and disaster prevention facilities when disasters occur. Talk with your family regularly as to where and how to evacuate and check them. Please use this map to be prepared for an emergency.

*This map is based on the circumstances as of January 2022.

Basic evacuation procedures in Taito City

In our city, each town council has designated Temporary Gathering Places (ittoki shugo basho), Evacuation Shelters (hinanjo), and Evacuation Sites (hinan basho).

A major earthquake has hit!!

Ensure safety of yourself and your family.

Once the quake has stopped, put out all open flames. If your home is hazardous, turn off the circuit breakers (to prevent electric fires) and leave your home.

Evacuate to a Temporary Gathering Place

A Temporary Gathering Place is a small park or open space where people in your neighborhood gather when there is an earthquake to make sure everyone is ok. You can then move to an Evacuation Shelter or Evacuation Site in a group.

Your home is safe. **You can not live at home.** **There is a danger of spreading fire.**

Evacuate to an Evacuation Shelter

A facility which functions as a shelter in case of an emergency to protect and provide meals to those who have lost their accommodations to collapses, fire, etc.

Evacuate to an Evacuation Site

A site to evacuate to when there is a fire hazard at your home, Temporary Gathering Place, or Evacuation Center. Evacuation sites in Taito City are: Ueno Park area, Yanaka Cemetery, and Sumida Park. (Designated by the Tokyo Metropolitan Government)

The fire was put out, but the home is inhabitable

The fire was put out, and the home is safe

Areas Where Evacuation is not Necessary
Areas designated by the Metropolitan government where large urban fires do not occur, and even in the event of fire, safety can be ensured by evacuating a short distance (about 1 block) and there is no need to evacuate to a wider area. (Designated by the Tokyo Metropolitan Government)

List of Temporary Gathering Places/Evacuation Shelters/Evacuation Sites by Town Council

Area	Town Council	Temporary Gathering Place	Evacuation Shelter	Evacuation Site
Takecho	Takecho Minami-chokai	Kotohira Jinja Shrine	Heisei Elementary School	Ueno Park Area
	Takecho Naka-chokai	Takecho Park

Categories of Evacuation Information

As shown below, there are two types of evacuation information: 1) Evacuation of the elderly, etc., and 2) Evacuation Instruction. Please follow these evacuation information issued by the City, and take actions with a calm mind.

Categories of Evacuation Information	Your Actions	Circumstances at Time of Issuance
Evacuation of the Elderly, Etc.	Persons requiring special care and considerations* should start evacuating. Other people should start getting ready for the evacuation, such as contacting family members and preparing for the survival kit.	Persons requiring special care and considerations and everyone else should complete the evacuation process immediately. Residents who have not evacuated yet should start the evacuation process immediately. If there is no time for it, please take the minimum possible actions to save your life.
Evacuation Instruction	Persons requiring special care and considerations and everyone else should complete the evacuation process immediately.
